

ADVISORY RETAIL PRICE LIST

This sound will make music history

July 2025

Our company is a small family business founded in 1971 in Aubonne, Switzerland. We develop and manufacture highly renowned top-quality loudspeakers and exceptional tube amplifiers. We implement optimal technical solutions to achieve the most transparent sound reproduction. To ensure their high quality, we handcraft all our products in our factory located in Switzerland. We love building our products and this gives them a soul making them very special.

Our history and expertise allow us to create exceptional products, whose finishes can be tailored to the wishes of our valued customers - making each piece unique!

4 | AMPLIFIER

All prices are in Indian Roupies

LECTRON JH32 - SOON AVAILABLE

integrated amplifier | output power 2 x 30 W

First-stage amplification : bipolar J-FET transistor

Power stage : 8 tubes EL84M in double push-pull design

5 line inputs + tape monitor

Remote controllable

(Delivered without remote control, but infrared codes RC-5 / RC-5+ / NEC factory adaptable)

Dimensions (HxWxD) : 192 x 380 x 330 mm

Weight : 16 kg

₹ 23,50,000

JEAN MAURER JM 370F

3-way vented-box system

Acoustic volume of 70 liters

Nominal impedance 3 Ohm

Sensitivity 92dB/Wm, level max. 115dB/1m

Dimensions (HxWxD) 1004 x 330 x 378 mm

Delivered with standard feet (soft domes) height + 12 mm

Weight : 60 kg

₹ 38,00,000 (pair)

Aluminium pin-points (variant of feet | height +42mm)

₹ 98,000 (set of 8 pieces)

JEAN MAURER JM 320E

3-way vented-box system

Acoustic volume of 20 liters

Nominal impedance : 4 Ohm

Sensitivity 92dB/Wm, level max. 115dB/1m

Dimensions (HxWxD) 580 x 330 x 258 mm

Weight : 26 kg

₹ 23,50,000 (pair)

Tubular steel stand filled with quartz sand

Height : 295 mm

₹ 1,40,000 (pair)

The geometry of our speakers has been defined by itself for technical reasons, it is a functional design and therefore cannot be changed. On the other hand, when it comes to tints and colors, it is possible to give free rein to one's imagination and wildest ideas.

Our cabinets can be veneered in a particular type of wood. There are some very light woods, others very dark, some species are striped, others branched or woody. We can make wood stained, cerused or even varnished in one color.

Our grilles are specific since they must be acoustically "transparent". They are available in white, grey, beige, rust, brown and black.

Our top glasses are varnished in our factory and are available in the same colors as the grilles.

If your wish is not feasible in our factory, we can subcontract the finishing of the cases to our body shop. The most impressive customization we've created is a lacquered, black and white, zebra patterned design with the right and left speakers chromatically inverted.

ADDITIONAL CHARGES FOR CUSTOM DESIGNS (pair)

All prices are in Indian Roupies
